

## REMARKS

This application is a division of Application No. 10/605,204 filed September 15, 2003.

Claims 21-26 are now presented for examination. Claims 1-20 have been cancelled without prejudice. Favorable review is respectfully requested.

The previous Application No. 10/605,204 was filed with claims 1-26; those claims were subject to a restriction requirement. In response to that restriction requirement, the invention defined by claims 1-20 was elected in that application. Claims 21-26 are directed to an integrated structure including a semiconductor device; the invention defined by these claims is a non-elected invention in the previous application. Claims 21-26 are set forth in the present application to obtain prosecution on the merits thereof.

In view of the foregoing amendments and remarks, the applicants respectfully request favorable consideration and early passage to issue of the present application.

The applicants' undersigned attorney may be reached by telephone at (845) 894-3667. All correspondence should continue to be directed to the below listed address.

Respectfully submitted,

Jay H. Anderson
